Please mark your recommendation:

ACCEPT: The article is suitable for publication in its present form.

ACCEPT WITH MINOR REVISIONS: Any required changes are minor, the editor of Proceedings will verify that the author made the recommended changes.

REVISE AND RESUBMIT: The article is acceptable for publication provided that significant changes are made, as indicated by the comment below. The revision will be re-reviewed.

REJECT: This article is not suitable for publication in JPCS.

Comment: In the paper it is proved one theorem about monogenic functions of octonion variable. The result of the paper can be interesting for mathematicians, but I am not sure whether it has any relevance to physics.

Nevertheless, the contribution has been presented at conference. For completeness of the proceedings I think that the paper should be published in the proceedings of the conference ISQS 23.
