

I.

Write a text classifying **computer software** (according to the diagram on p. 21 in the textbook) or **computer memory** (according to lesson material 7 / p. 2 / ex. II). Each sentence in your writing has to be of different structure; use a wide range of 'classifying' words. The length is not set, but the entire diagram must be covered.

**Bring your writing on a separate sheet.**

**Please DO NOT use ChatGPT or any other AI tools (including translators).**

II.

lesson material 7 / p. 4 / ex. VII. – translate all sentences; at least 4 of them must be written down
