adjective	verb	noun

hot heat heat heat warm warm (up) warmth cool cool cool coolness cold cold cold weak weaken weakness tough toughen toughness soft soften softness hard harden hardness rough roughen roughen roughness strong strengthen strength resilient make something resilient resilience brittle embrittle brittleness flexible make something elastic elasticity pliable make something rigid rigidity smooth smooth smoothen smoothness rigid make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify vapour gaseous gasify sas	aujective	verb	noun
cool cool cool coolness cold cold cold weak weaken weakness tough toughen toughness soft soften softness hard harden roughen roughness strong strengthen strength resilient make something resilient resilience brittle embrittle brittleness flexible make something elastic elasticity pliable make something pliable pliability smooth smooth / smoothen smoothness rigid make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify vapour	hot	heat	heat
cold cold cold cold weak weaken weakness tough toughen toughness soft soften softness hard harden harden rough roughen strength roughen strength resilient make something resilient pliable make something pliable pliability smooth smooth smooth smooth smooth smooth smooth smooth make something rigid rigidity ductile make something malleable make something malleable liquid liquefy / (liquidise) liquid / liquidity vapour vapour	warm	warm (up)	warmth
weak weaken weakness tough toughen toughness soft soften softness hard harden hardness rough roughen roughness strong strengthen strength resilient make something resilient resilience brittle embrittle brittleness flexible make something flexible flexibility elastic make something elastic elasticity pliable make something pliable pliability smooth smooth/ smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify solid/ solidity vapour vapour	cool	cool	coolness
tough toughen toughness soft soften softness hard harden hardness rough roughen roughness strong strengthen strength resilient make something resilient resilience brittle embrittle brittleness flexible make something flexible flexibility elastic make something pliable pliability smooth smooth / smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify vapour	cold	cold	cold
soft soften softness hard harden hardness rough roughen roughen roughness strong strengthen strength resilient make something resilient resilience brittle embrittle brittleness flexible make something flexible flexibility elastic make something pliable pliability smooth smooth / smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify vapour	weak	weaken	weakness
hard harden harden hardness rough roughen roughness strong strengthen strength resilient make something resilient resilience brittle embrittle brittleness flexible make something flexible flexibility elastic make something elastic elasticity pliable make something pliable pliability smooth smooth / smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify vapour	tough	toughen	toughness
rough roughen roughness strong strengthen strength resilient make something resilient resilience brittle embrittle brittleness flexible make something flexible flexibility elastic make something elastic elasticity pliable make something pliable pliability smooth smooth / smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify vapour	soft	soften	softness
strong strengthen strength resilient make something resilient resilience brittle embrittle brittleness flexible make something flexible flexibility elastic make something elastic elasticity pliable make something pliable pliability smooth smooth / smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify vapour	hard	harden	hardness
resilient make something resilient resilience brittle embrittle brittleness flexible make something flexible flexibility elastic make something elastic elasticity pliable make something pliable pliability smooth smooth / smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify vapour	rough	roughen	roughness
brittle embrittle brittleness flexible make something flexible flexibility elastic make something elastic elasticity pliable make something pliable pliability smooth smooth / smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify vapour	strong	strengthen	strength
flexible make something flexible flexibility elastic make something elastic elasticity pliable make something pliable pliability smooth smooth / smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify solid / solidity vapour vaporize vapour	resilient	make something resilient	resilience
elastic make something elastic elasticity pliable make something pliable pliability smooth smooth / smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify solid / solidity vapour vapour	brittle	embrittle	brittleness
pliable make something pliable pliability smooth smooth / smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify solid / solidity vapour vaporize vapour	flexible	make something flexible	flexibility
smooth smooth / smoothen smoothness rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify solidity vapour vapour	elastic	make something elastic	elasticity
rigid make something rigid rigidity ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify solid / solidity vapour vaporize vapour	pliable	make something pliable	pliability
ductile make something ductile ductility malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify solid / solidity vapour vaporize vapour	smooth	smooth / smoothen	smoothness
malleable make something malleable malleability liquid liquefy / (liquidise) liquid / liquidity solid solidify solid / solidity vapour vaporize vapour	rigid	make something rigid	rigidity
liquid liquidise) liquid / liquidity solid solidify solid / solidity vapour vaporize vapour	ductile	make something ductile	ductility
solid solidify solid / solidity vapour vaporize vapour	malleable	make something malleable	malleability
vapour vaporize vapour	liquid	liquefy / (liquidise)	liquid / liquidity
	solid	solidify	solid / solidity
gaseous gasify gas	vapour	vaporize	vapour
	gaseous	gasify	gas
